

OPERATING MODEL · 2026

Four screens.

A clear path from 500 to Top 100.

Follow the left menu from 01 to 04 to narrow Japan or global equities, funds, ventures and other routes for further nature-positive diligence. On mobile, the menu moves to the top.

Important: inclusion is not certification of a nature-positive outcome. The Top 100 is a Stage-1 nature-DD priority—not expected-return rank, a buy order or investment advice.

JAPAN · ABOUT 500

Baseline universe: 370 listed equities, 40 funds/listed vehicles and 90 ventures.

GLOBAL · ABOUT 500

Includes equities, funds and ventures plus debt, real assets and transition/engagement candidates.

WHAT THIS GUIDE COVERS

01 Start → 02 Top 100 → 03 Case & allocation → 04 Guide & sources

Japan and global updates are independent. There is no scheduled refresh; when anyone presses an update button, the saved latest version is shared with every user.

01 · NAVIGATING THE WORKSPACE

Follow the left menu from 01

1	Start Choose Japan or global, check the shared update time, then set capital, horizon and mandate lens.
2	Top 100 Filter about 500 candidates and compare 20 at a time. Click a name to open the total, positive drivers, risk deduction, calibration, evidence and unknowns.
3	Case & allocation Explicitly add a candidate to move here. Review the shortlist and allocation; previewing alone does not commit it.
4	Guide & sources Find PDFs, CSVs, methodology, sources and audit logs. Long explanations stay folded. Updates are shared and are not scheduled.

HOW THE PAGE STAYS SHORT

Left menu Always visible on desktop, showing the current screen and the next place to go.	Folded panels Filters, methodology, sources and audit logs open only when needed.	20 at a time The Top 100 keeps its ranking while showing 20 candidates per page.
---	---	--

02 · READING THE TOP 100

Open filters → compare 20 → inspect one

The universe includes possible nature solutions and companies with large nature dependencies or impacts where transition and engagement may matter. The latter must not be treated as already nature-positive.

Nature opportunity Relevance to restoration, pressure reduction, circularity, water, food/agriculture, forests, oceans and related pathways.	Investor contribution Whether capital, engagement, terms, covenants or technical support can improve the outcome beyond business as usual.	Evidence & risk Primary sources, location, baseline, counterfactual, leakage, permanence, controversies and transition plans.
--	--	---

KEY FILTERS

資産 / Asset	Equity, funds/real assets, venture, debt, projects and more
自然テーマ / Nature	Biodiversity, circularity, water, food/agriculture, forests, oceans, land use, transition
実行性 / Access	Exchange, distributor, private/direct, dealer or sponsor routes. Display does not confirm current availability.
証拠 / Evidence	Maturity of public evidence—not a rating of outcome quality or expected return.

READING PRINCIPLE

A higher rank means there are more reasons to deepen nature DD under the current settings. Pagination only changes the 20 visible rows; ranks 1–100 stay intact. It does not make risk, return, duration or outcome units comparable across asset classes.

03-04 · CASE, ALLOCATION, GUIDE & SOURCES

Do not jump from Top 100 to an investment decision

✓	Do not describe a candidate as already delivering a nature-positive outcome
✓	Check date, scope, location and methodology of primary evidence
✓	Test nature dependencies/impacts and their financial pathways
✓	Test baseline, counterfactual, leakage, permanence and additionality
✓	Reconfirm route, minimum, capacity, availability and eligibility before execution
✓	Refresh price, terms, sanctions, controversies, exit, monitoring and remedy terms

PRIMARY UNIVERSE SOURCES

国内 / Japan	JPX listed issues (equity, ETF, REIT etc.) METI J-Startup (ventures)
海外 / Global	Forest 500 plus existing official issuer, manager and transaction sources. High-impact companies are treated as transition/engagement candidates.

The site and this guide support research using public information. They are not investment, legal, tax or accounting advice, an offer, a suitability decision or outcome certification.
